The Commission's grant of its consent to the transfer of control of Impsat USA with respect to the AMERICAS II cable landing license is conditioned, **among** other things, **on** Impsat USA notifying the Commission of any 10% or greater direct or indirect shareholders of Impsat Fiber Networks within five business days after ownership is conclusively established. Ownership of Impsat Fiber Networks has not yet been conclusively established, although Impsat USA expects such information to become available within the next couple of weeks. Impsat USA will provide the Commission with this information within five business days of the date it becomes available.

A second condition of the Commission's grant of its consent to the transfer of control of Impsat USA with respect to the AMERICAS II cable landing license is that Impsat USA provide interlocking directorate information within five business days after the appointment of Impsat Fiber Networks' Board
